

We are a Victoria based company dedicated to improving seniors' quality of life through creative technology. We develop, manufacture and sell sophisticated monitoring and emergency call technologies throughout North America. Ours is a fast-paced environment where hard work, initiative, teamwork and flexibility are prized, and we are looking for a like minded individual to fill a key role in our Company. As a smaller organization we have a collaborative, open door culture based on trust where new ideas are welcome. If you have a strong work ethic and are looking to make a difference and feel appreciated, we would invite you to join our team.
